Assessment

Assessment in KAS is a critical part of educational instruction. It determines if the goals of education are being met. Assessment results provide phenomenal information about the extent to which students are meeting standards and what they need to do to improve.

KAS follows parallel assessment of both Scholastic and Co-Scholastic Skills.

Assessment of Scholastic Skills

There are 3 main types of assessments: diagnostic, formative, and summative tests.

In each of these, there are five main question types: multiple choices, constructed response, extended constructed response, technology enhanced, and performance task.

The methods of assessment: paper and pencil, online, or computer adaptive testing **or any appropriate method.**

All the four languages 'assessment will be based on the LSRW SKILLS-Listening, Speaking, Reading and Writing.

Subjects like Math, Science and Social Science will be assessed for Concept Clarity and Understanding of Content.

Skill based subjects like Computer Science, Creya, Robotics, Archery, Karate and PET will be assessed for the skills taught.

All assessments will be conducted at a regular basis, throughout each term, at the end of which a comprehensive Summative Test would be conducted.

The aggregate of both Formative and Summative Tests will show the performance of the child for each term and the aggregate of both terms will be the overall performance of the whole year.

Diagnostic Tests: Include pre-learning assessment prior to teaching of a new concept to know the existing knowledge of students. These tests are conducted in the form of Quizzes, Interactive Teacher-Students Sessions and Games. These are informal and uninformed tests and require no prior preparation and no information will be sent to the parents/students. These tests will serve as a tool to the teachers and will help them to plan effective teaching strategies.

Formative Tests: Include any form of testing while teaching. These are teacher - administered tests and can be in the written or oral form. Worksheets, puzzles, quizzes, reading and spelling activities and many other varied tests. One FA test is conducted every week at the end of each concept taught. These tests are informal and no information will be sent home. These tests will help teachers know how much learning has occurred. For students to do well in these tests regularity, punctuality and attentiveness in class is of utmost importance.

Summative Tests: These are written / oral tests, any form of testing after teaching is completed. It is conducted at the end of every month. These are formal tests and information will be sent to the parents. Regular reading of content book, completing workbook activities and timely completion of Home Assignments are key factors for students' success in SA tests. Two term-end assessments have been nullified from this year onwards. The average of all the monthly assessments will be capture in the report card given at the end of each term.

Assessment of Co-Scholastic Skills is comprehensive and continuous at KAS. The school believes in all round development of all students. Some of the co-scholastic skills are:

It will be recorded in the student's handbook. All points are totaled and the highest scorer of each class is awarded the Star of the Fortnight.

Assessment of Health is based on the following parameters.

Those parents who face any problem in accessing to Report Bee should at once mail to the School Admin to bring to the notice of the concerned authority.

In addition to the school administered assessment, we also have external assessments.

Learnometer - XSEED generated pen and paper multiple choice 50 mark test to be conducted at the end of each term. The test is conducted in the school premises and the students need not make any special preparation as it is not syllabus or subject based. The students' response sheets will be sent for external correction and the Student's Report will be available to parents and students once the school receives the report cards.

Detailed Assessment - [DA] this is an online test for students of classes 3 to 7. Eight online tests to be taken in the school **or at home** timely intervals that cover the whole year will be conducted for English, Science and Math subjects. The results of the assessment will be shared with students and parents through Report bee.
